

Angga Saputra

Network & Infrastructure Engineer · Web3 Enthusiast

089 6144 56776 · saputra.mung@gmail.com · Serpong Utara, Tangerang · t.me/mungxبت · x.com/himiwhimiw

PROFILE

Network & Infrastructure Engineer with 5+ years of experience managing enterprise IT environments. Proficient in Mikrotik, Unifi, VPN, Active Directory, and Synology NAS. Also an active Web3 enthusiast since 2018 — running blockchain nodes, farming airdrops, and building Telegram automation bots.

EXPERIENCE

Network & Infrastructure Staff

08/2019 – 12/2024

PT. Hidayah Insan Mulia

- Manage and troubleshoot PC hardware, printers, scanners, CCTV, and mobile devices.
- Handle client connectivity: TCP/IP, switch, Unifi, VPN (PPTP/L2TP), Mikrotik router.
- Administer Windows, Linux, and macOS environments.
- Manage Synology NAS systems and Zentyal Active Directory.
- Built Mikrotik script to monitor dynamic public IP changes for stable office VPN connectivity.
- Secured office network against crypto miner malware and unauthorized wireless access.

IT Support

2017 – 2018

RSU. Hasanah Graha Afah

- Installation, evaluation and improvement of computers, software, and network systems.
